Drinking Water Access Act, 2023 PA 154.*

Certified by: ANDY CZAICA

Certification Date: 8/27/2026

Filter First requires schools to report the yearly status of the following:

Status

Requirement

The Drinking Water Management Plan (DWMP) has been completed for this building: Yes

The DWMP is available to EGLE, school staff, parents and guardians of children enrolled in the school, and made available to the general public upon request.

The building has the minimum number of bottle filling stations: Yes

For every 100 students and staff, the building must have at least one bottle-filling station compliant with all Filter First requirements.

Number of Eligible Bottle Filling Stations: 4 Reported School Population: 207

Filters are properly maintained: Yes

Filter cartridges are regularly replaced at each filtered bottle-filling station and filtered faucet following manufacturer's instructions or recommendations of EGLE.

Samples were collected and tested for lead in drinking water: Yes

Completed annual water sampling and testing of the filtered water at each filtered bottle-filling station and filtered faucet.

Followed lead detected remediation actions: No lead was detected

Every school is required to take action to reduce the risk of lead exposure in drinking water if sample results detected lead.
